

## **Diethard Mattanovich - Austria**

Institute of Microbiology and Microbial Biotechnology, Department of Biotechnology, University of Natural Resources and Life Sciences, Vienna, Austria

Diethard Mattanovich is Professor of Microbial Biotechnology at BOKU University Vienna, where he leads the Department of Biotechnology. He investigates the application of yeasts for the conversion of carbon dioxide and other renewable feedstocks into chemicals of our daily use, such as biopolymers.

He is Chair of the International Yeast Commission, and of the Microbial Biotechnology Division of the European Federation of Biotechnology.
